

Mohammed bin Rashid Housing Establishment provides smart intelligent alarm system in their homes

Mohammed bin Rashid Housing establishment launched a new smart intelligent alarm system in cooperation with the General Directorate of Dubai Civil Defence in "Al Barsha South First" housing project. The Assistant Executive Director of the engineering sector in the organization Mr. Burhan Abdul Rahman Al Habbai said "24x7 Direct Alarm System for Homes is one of intelligent systems that connect houses with Command Control Center in Civil Defence, so that the residents of the house can alert Civil defence in the event of a fire or any accident related to safety in their home, as soon as the alarm button is pressed the alarm signal will go directly to DCD Command Control Center with all details of the house . Al Habbai stated that the establishment added this smart service to 31 houses as free of cost and the plans is to continue the installation of the 24x7 Direct Alarm System in the areas of their Al Barsha Project (4, 5 and 6) which is currently in the implementation process".
